

## THE AI EVERYONE'S TALKING ABOUT... CHATGPT

IS IT REALLY WORTH THE HYPE AND WHAT ARE THE SECURITY RISKS TO CONSIDER?

[FIND OUT MORE](#)

### HEY FROM ADAM GRIFFIN

It's great to launch the monthly Bamboo On Point for you. We're looking to keep you and your teams up to speed with the latest industry news, cyber tips and much more.

The team will be taking you through the latest need to know information, but if there's something you'd like to see in upcoming editions, give us a shout!

### WHERE TO LOOK

#### CYBER ESSENTIALS

"We are encouraging all businesses to consider Cyber Essentials certification as part of an annual cyber 'MOT'." - Lindy Cameron CB, CEO of NCSC.

Talk to the team to find out more about Cyber Essentials and how we can help!

#### FREE TOOLS

The NCSC have great tools which all businesses can use. Find out more about the free [Early Warning tools NCSC](#) have available - it's a great step forward into your Cyber Essentials journey!

**TOP TIPS****TIP 1**

Stay vigilant online. Ensure you are checking for fake profiles in relation to your business. Follow the link for our [top tips!](#)

**SIMON SAYS**

Sometimes it's just as important to remember that the small changes we make are just as impactful as the technical ones.

- Keep your devices patched (or leaving them on once a week so they can install their updates)
- Using MFA (Multi-factor Authentication) and strong passwords wherever possible are some easily adopted best practices.

**TIP 2**

Check your cyber security insurance. If you don't have any in place, speak to the team for advice.

**TIP 3**

Obtaining Cyber Essentials is a great step to improving security.

**UPDATES FROM ACROSS THE INDUSTRY****TRUSTD MTD - WHY IS IT IMPORTANT?**

Mobile Threat Defence (MTD) is just as important to have in place across your teams mobile devices as you would have a firewall for your computers. Take a look at how it works on the video link below.

[TRUSTD MTD VIDEO](#)**WINDOWS 2012 SERVER END OF LIFE**

Microsoft are ending extended support for Windows Server 2012 on the 10th October 2023. Find out all the details on the link below.

[SERVER EoL INFO](#)**SEABORGIUM AND TA453**

SEABORGIUM and TA453 are cybercriminal groups currently targeting the UK and the USA.

Take a look at what it means for business in our latest blog.
