**TOP TIPS**

**SIMON SAYS**

"In one of our previous issues we talked about the MOVEIT cyber attack which took place earlier this year. Towards the end of July cybersecurity firm Emsisoft reported that 383 organisations and more than 20 million individuals have been compromised, based on breach notifications, SEC filings, public data, and information from Clop's leak site. However, it's worth noting that some of the affected companies provide services to numerous other organisations, potentially magnifying the impact."

With incidents like this happening all the time, it's important to **carry out cybersecurity health checks and general IT reviews across your systems.**

**TIP 1: IT'S A TECH WORLD, WE JUST LIVE IN IT.**

Ensure your team stay up to date with regular cybersecurity training. Having regular training encourages everyone to follow best practise.

**TIP 2: TEAM EFFORT**

Do your team know what to do if there is an incident? Ensure the steps are visible/accessible for the whole team - at the end of the day it's everyone's responsibility!

**TIP 3: MFA, MFA, MFA (CHANTING)**

We've said it before... strong passwords and MFA are the way to go.

**DATES FOR YOUR DIARY**

There are lots of changes and events taking place over the next couple of months, so we wanted you to have all the details of what's happening so you are ready to rock and roll!

- **BT WLR SWITCH OFF** - STOP SELL 5TH OF SEPTEMBER
